Key Indicator - 7.2 Best Practices 2017- 2018

BEST PRACTICE-1

CLEANLINESS DRIVE

1. Objectives

Bhiwapur Mahavidyalaya, under the aegis of its IQAC Chapter, organizes Cleanliness Drives every year to spread awareness about Cleanliness and Personal Hygiene among our students and the general public.

- To introduce modern solid waste management.
- To eliminate open defecation.
- To promote positive attitude towards healthy sanitation practices.
- To ensure the overall development of citizens in terms of health and well-being.
- To sow the seeds of responsiveness among our students towards fellow human beings for having pollution free environment to live in.
- To instil sense of Community Service among our students.
- To promote the importance of keeping our premises plastic-free.
- To sensitize the students about Institutional Social Responsibilities.
- To ensure the holistic development of students.

2. The Context

Clean environment is an indicator of progress of human beings. Many cities in India are in dire need of such Cleanliness Drives to eradicate dirtiness. With an

objective of keeping our village clean, Bhiwapur Mahavidyalaya organizes Cleanliness Drives every year. Under this drive, Cleaning of College premises and many prominent places in the city are carried out. Awareness about cleanliness and personal hygiene is generated by putting up slogans, rallies, street plays and Skit.

3. The Uniqueness

The Volunteers of NSS and NCC Units, in association with Gram Panchayat, Nagar Parishad and Tahsil Office, have adopted this practice as part of our Institutional Social Responsibilities for the wellbeing of the people in the society.

4. Constraints/ Limitations, if any

Lack of awareness about the adverse effects of improper waste disposal, open defecation and strewing of garbage on public places are some of the serious concerns. Low turn-out of active participation of the people in Cleanliness Drive is another major issue, which affects the primary objective of Cleanliness Drive.

5. Evidence of Success

With the objective of keeping our village clean, our Volunteers of NCC and NSS Units in association with Western Coalfields Limited (WCL) conducted a Mega Cleanliness Drive at the village Salesahari in Bhiwapur Taluka on 22th September, 2017. During this Special Cleanliness Drive, 82 participants including 44 NCC Cadets cleaned the village and the nearby premises. Even the teachers were an essential part of the Special Drive.

The Volunteers of NCC and NSS created awareness among the people of the

village about the benefits of cleanliness and personal hygiene. Towards the end of the programme, the participants took oath of keeping our home, locality and city clean. The Principal of the College Dr. Jobi George, the Care Taker Officer of NCC, Asst. Prof. Dr. Vinita Virgandham, Asst. Prof. Dr. Vijay Dighore, Programme Officer of NSS, Teaching and Non-Teaching Staff of the College and the local people extended their whole hearted support and cooperation in conducting this Mega Cleanliness Drive.

6. Outcomes

- Students understood the importance of Cleanliness.
- Student spread awareness about cleanliness and personal hygiene among the villagers.
- Prominent places in the village were cleaned.
- Students became conscious of Health and Hygiene.
- Students became aware of the importance of keeping the premises of College and other Government Offices neat and clean.
- Succeeded to sow the seeds of responsiveness among our students towards fellow human beings for having pollution free environment to live in.
- Instilled sense of Community Service among our students.
- Sensitized the students about Institutional Social Responsibilities.
- Promoted the importance of keeping our premises plastic-free.
- Ensured the holistic development of students.

7. Problems Encountered and Resources Required

Low turnout and participation of people from the society is one of the major problems encountered during the Cleanliness Drive. In order to make the Cleanliness Drives even more successful, many more efforts are needed to be implemented in terms of awareness.

Key Indicator - 7.2 Best Practices 2017- 2018

BEST PRACTICE-2

PERSONALITY DEVELOPMENT AND MOTIVATION

1. Objectives

Our Institution is committed for the holistic development of our students. Apart from the curricular activities, co-curricular and extracurricular activities are also conducted by our Institution for grooming the personality of our students. The main objectives of organizing such programmes are;

- To help students to set their goals for better future.
- To help students to pursue their goals.
- To develop confidence among students.
- To develop students' self-esteem.
- To develop students' decision- making ability.
- To analyse strengths and weaknesses of students.
- To provide motivation for students to achieve their goals.
- To groom the personality of students.

2. The Context

The College being located in the rural area, majority of the students who pursue their education are from remote areas. These students are relatively lagging behind the students from urban background. Hence, initiatives have been taken by the Institution to fill the gap and to provide grooming to these students.

Students require special attention to realize their potential and abilities. Students especially girls have to face restrictions at home and some girls discontinue their studies. In order to give them the determination, personality development programmes have been designed. The expected outcome is that the students should be able develop self-confidence and make improvements in their self-esteem.

3. The Uniqueness

Our Institution organizes Personality Programmes for the overall development of students. The programmes are planned as per the need of students. The Institution analyses strengths and weaknesses of students and provides motivation to them for achieving their goals.

4. Constraints/ Limitations if any

There are many constraints in organizing the said practice. Students from the rural background are very shy and reluctant to change themselves. Most of the students are not interested and don't involve themselves in such activities. Overall, less attendance of the students is another constraint in achieving the expected outcome of this practice.

5. Evidence of Success

The Institution is committed for the overall development of students. Keeping this in view, the Institution organized Personality Development Programmes and Grooming Sessions for the students through various Committees and Study Centres. Many students have been benefitted through such activities.

6. Outcomes

- Many remarkable developments have been observed among students after attending the programme.
- Students got motivated and developed positive attitude.
- Students were found to be more focussed on their careers.
- Students were able to make their own decisions.
- Students were found to be determined in achieving their goals.

7. Problems Encountered and Resources Required

There were many challenges which needed to be addressed in designing and implementing this practice. Students were reluctant to change their mind-set. Most of the students were found to be down with inferiority complex and were hesitant to take up new ventures. Initially, it was a challenge to create interest among students to involve them in Personality Development activities.
