4. Digital Library

The concept of 'Digital Library' offers the students remarkable advantages of learning in a setting that suits their personal comfort. It bestows upon them the remarkable ability to access a wealth of information from any location, at any given time with just a few clicks. Notably, each faculty member had played an active role in this endeavour, diligently creating individualized QR Codes for their respective subjects. These QR Codes served as gateways, seamlessly providing students with access to an array of valuable resources. These included an assortment of Research Papers, informative books, comprehensive syllabi, audio recordings, video presentations, a repository of question banks, past years' question papers and meticulously crafted class notes.

This innovative approach served as a robust platform for the students to not only broaden their understanding but also to refine their Research acumen. The versatility of the Digital Library empowered them to engage with a variety of learning materials, thus facilitating a holistic enhancement of their academic journey. By offering a comprehensive assortment of resources, this initiative was designed to propel students towards greater knowledge acquisition, improved Research proficiencies and a heightened level of academic excellence.
