## BRIEF REPORT

The IQAC of our Institution is instrumental in implementing various innovative teaching-learning practices in our Institution through Information and Communication Technology (ICT), Audio-Visual-Aids, CDs, Internet and free Computer Training Programmes for the students. To facilitate the same, "Committee For Promoting the use of Technology in Teaching and also for Establishing Complete Students' Computer Literacy Programme (Audio Visual Aids-LCD, OHP, Interactive Boards/Smart Boards Etc.)", was constituted for the Academic Session 2018-19. The Committee encouraged teachers to undertake ICT enabled Teaching-Learning process for effective curriculum delivery. The Committee had initiated Free Computer Literacy Programme for the students. Under this flagship Training Programme, teachers supported the students in learning the basics of Computer Application and Internet operations.

The Committee maintained data of teachers who incorporated ICT in their teaching-learning process:

- ❖ In August-2018, Asst. Prof. Dr. Nitisha Patankar, Asst. Prof. Dr. S. Dhote, Asst. Prof. A. Kalbandhe and Asst. Prof. Dr. V. Vinita Virgandham used ICT tools for conducting their classes.
- ❖ In September-2018, Asst. Prof. Dr. M.R. Chavhan, Asst. Prof. Dr. R. K. Quraishi, Asst. Prof. Dr. R. Bahurupi, Asst. Prof. S. Wasekar, Asst. Prof. Dr. N. Patankar, Asst. Prof. Dr. S. Dhote and Asst. Prof. Dr. V. Virgandham used ICT tools for conducting their classes.
- ❖ In December-2018, and January-2019- Asst. Prof. Dr. M.R. Chavhan, Asst. Prof. S. Wasekar, Asst. Prof. Dr. S. Dhote, Asst. Prof. A. Kalbandhe used ICT tools for

conducting their classes.

- ❖ In February-2019, Asst. Prof. Dr. S. Dhote and Asst. Prof. A. Kalbandhe used ICT tools for conducting their classes

Initially, the Committee procured the data of students with basic Computer knowledge. The Committee excluded those students who had already obtained the basic knowledge of Computer from the Training Programme. Further, the Committee sought the assistance of Computer literate students to impart training to all the remaining students who were lagging behind in basic Computer knowledge. For providing the basic Computer knowledge to students, the Committee divided students into small groups of 20/30/40 and engaged one teacher for conducting the Training Programme. The Committee prepared the list of students on the basis of Optional Subjects of First Year, Second Year and Final Year and accordingly divided the students into groups of 20/30/40. The College has State-of-the-Art infrastructure to cater free Computer Training to students. Each teacher was given the responsibility of teaching the basics of Computer Application to a certain number of students during the off periods. This practice had enabled the College to increase the Computer literacy rate of students. The Committee monitored the classes engaged by all the teachers with the help of Audio-Visual Aids. As such, the Committee allowed outstanding students with basic Computer Knowledge to demonstrate their skills with the help of Interactive Boards.

Initially, the Committee procured data of students with basic Computer knowledge. The Committee excluded those students who had already obtained the basic knowledge of Computer from the Training Programme. Further, the Committee sought the assistance of Computer literate students to impart training to all the remaining students who were lagging behind in basic Computer knowledge. For providing the basic Computer knowledge to students, the Committee divided students into small groups of 20/30/40 and engaged one teacher for conducting the Training Programme. The Committee prepared the list of students on the basis of Optional Subjects of First Year, Second Year and Final Year, from the first period onwards and accordingly divided the students into groups of 20/30/40. The College has State-of-the-Art infrastructure to cater free Computer Training to students. Each teacher was given the responsibility of teaching the basics of Computer Application to a certain number of students during the off periods. This practice had enabled the College to increase the Computer literacy rate of students. Students were imparted the knowledge of MS-Word, MS-Excel and MS-Power Point. Certificates were issued to the meritorious students on completion of the basic course. Further, the regular teaching was mostly carried out by teachers with the help of ICT. ### Concept Note

A learning system based on formalised teaching but with the help of electronic resources is known as E-learning. While teaching can be based in or out of the classrooms, the use of computers and the Internet forms the major component of E-learning. E-learning can also be termed as a network enabled transfer of skills and knowledge, and the delivery of education is made to a large number of recipients at the same or different times.

However, with the rapid progress in technology and the advancement in learning systems, it is now embraced by the masses. The introduction of computers was the basis of this revolution and with the passage of time, as we get hooked to Smartphones, Tablets etc. These devices now have an importance place in the classrooms for learning. Books are gradually getting replaced by electronic educational materials like optical discs or pen drives. Knowledge can also be shared via the Internet, which is accessible 24/7 anywhere, anytime.

Following activities were organized by the Committee during the Academic Session 2022-2023

### **1. World Computer Literacy Day**

The 'Committee for Promoting the use of Technology in Teaching and Achieving Complete Students' Computer Literacy Programme' celebrated World Computer Literacy Day on 2<sup>nd</sup> December, 2022 which was aimed to create awareness and encourage the students about the efficient use of Computers in day-to-day life, and also for motivating them to learn new skills.

### **2. Basic Computer Training Course of 45 Days.**

Initially, the Committee procured data of students with basic Computer knowledge. The Committee excluded those students who had already obtained the basic knowledge of Computer from the Training Programme. Further, the Committee sought the assistance of Computer literate students to impart training to all the remaining students who were lagging behind in basic Computer knowledge. For providing the basic Computer knowledge to students, the Committee took initiative to arrange free 'Computer Training Programme', which was inaugurated on 21<sup>st</sup> November, 2022. In all, 153 students registered for this course. The Committee divided students into small groups and engaged one teacher for conducting the Training Programme. The College has State-of-the-Art infrastructure to cater free Computer Training to students. This practice had enabled the College to increase the Computer literacy rate of students. In all 117 students successfully completed the Training

Programme and were awarded Certificates of completion.

#### **4. Digital Library**

The concept of 'Digital Library' offers the students remarkable advantages of learning in a setting that suits their personal comfort. It bestows upon them the remarkable ability to access a wealth of information from any location, at any given time with just a few clicks. Notably, each faculty member had played an active role in this endeavour, diligently creating individualized QR Codes for their respective subjects. These QR Codes served as gateways, seamlessly providing students with access to an array of valuable resources. These included an assortment of Research Papers, informative books, comprehensive syllabi, audio recordings, video presentations, a repository of question banks, past years' question papers and meticulously crafted class notes.

This innovative approach served as a robust platform for the students to not only broaden their understanding but also to refine their Research acumen. The versatility of the Digital Library empowered them to engage with a variety of learning materials, thus facilitating a holistic enhancement of their academic journey. By offering a comprehensive assortment of resources, this initiative was designed to propel students towards greater knowledge acquisition, improved Research proficiencies and a heightened level of academic excellence.

<b>BRIEF REPORT</b>	The Committee for Promoting the use of Technology in Teaching and Achieving Complete Students' Computer Literacy, under the aegis of IQAC, collaborated with the National Service Scheme Unit of our Institution and organized a comprehensive forty five days' Basic Computer Training Course during the Academic

Session 2022-2023. Prior to the introduction of this Course, the ICT Committee conducted a Survey among the students to gauge their Computer Literacy levels. Based on the Survey data, the modalities of Computer Training Course were thoughtfully designed.

This initiative was aimed to provide free Computer Literacy education to students, with teachers actively supporting them in mastering the fundamentals of Computer Applications. The primary objective of this Programme was to ensure that all the students of our Institution would become Computer-Literate.

The Computer Training Programme was inaugurated on 21<sup>st</sup> November, 2022 at the hands of Dr. Jobi George, the Principal of the College. Asst. Prof. Dr. Motiraj Chavhan, the NSS Coordinator, who delivered the Introductory Speech, and Asst. Prof. Dr. Mangesh Kadu, the IQAC Coordinator, who emphasized the significance of Computer Literacy in the digital age. Dr. Jobi George, in his Presidential Address, optimistically opined that Computer Literacy initiative would serve as a commendable effort to equip our students with essential digital skills, enabling them to thrive in the post-modern world. The Event witnessed the presence of faculty members including Asst. Prof. Dr. Vijay Dighore, Associate Prof. Dr. Madhukar Nandanwar, Asst. Prof. Dr. Raheel Quraishi, Asst. Prof. Dr. Anita Mahawadiwar, Asst. Prof. Dr. Vinita Virgandham, Asst. Prof. Dr. Rajsree O.P., Asst. Prof. Dr. Yogesh More, and Asst. Prof. Darshana Dhamdar, alongside enthusiastic students. The Inaugural Ceremony was concluded with the formal Vote of Thanks delivered by Asst. Prof. Amit Thakare.

Under the guidance of Asst. Prof. Dr. Ravikant Mishra, Mr. Khushwant Dhamke, and Computer Literate NSS students, the

	<p>Computer classes were conducted. On 12<sup>th</sup>December, 2022, the students received in-depth insights into Hardware and Software from the expert talk of Mr. Vaibhav Vairagade.</p> <p>The success of this Training Programme owes much to the dedicated efforts of Asst. Prof. Dr. Ravikant Mishra from the ICT Committee, who worked tirelessly to ensure its grand success. Out of 153 students enrolled, an impressive 117 students successfully completed the Training Programme and they were awarded Certificates of completion.</p>
<p><b>PROGRAMME OBJECTIVES</b></p>	<ul style="list-style-type: none"> <li>• To provide free Computer Literacy education to students.</li> <li>• To achieve complete students' Computer Literacy.</li> <li>• To promote the use of technology in teaching.</li> <li>• To enable the students to thrive in the post-modern digital age.</li> <li>• To collaborate with NSS Unit for a more comprehensive impact.</li> <li>• To provide expert guidance in Hardware and Software.</li> <li>• •To create an encouraging and supportive atmosphere where students can learn and enhance their Computer skills with confidence.</li> </ul>
<p><b>PROBLEMS FACED, IF ANY</b></p>	<ul style="list-style-type: none"> <li>• <b>Time Constraints:</b> Forty five days Course might not be sufficient to cover all the aspects of Computer Literacy comprehensively, especially for the students with little knowledge.</li> <li>• <b>Training Staff Expertise:</b> Ensuring that the teachers and the NSS students conducting the classes were well-versed in Computer Applications and teaching methodologies was a challenge for the Committee.</li> <li>• <b>Assessment and Evaluation:</b> Effectively assessing the students' progress and learning outcomes during the training</li> </ul>
