पर्यावरण आणि शायवविकास : एक वस्त्रीक्षे

हाँ, सुनिल शि

१८ व्या शतकात इंग्लंडमध्ये अंद्योगिक क्रांतीची सुरवात झाली. १९ व्या आणि २० व्या शतकाच्या मध्यापर्यंत अनेक देशात ही औद्योगिक क्रांती परस्ति। या काळात मोदार, रेत्व विमान अनुउन्नी, रसायने इत्यादी अनेक शास्त्रीय शोध लगात्यामुळेपुरोपियन देशात औद्योगिकरण घडून आले. दुरान्या महायुख्यांनत अनेक अविकासित देश गुलामिगरीतृत मुक्त झात्यानंत स्थानी सुख्या आर्थिक प्रगतीसाठी औद्योगिकरणाचे धोरण दिवकारले. प्रत्येक राष्ट्राने देशातील लोकांच्या सुख्यसम्ब्रीसाठी जलद आर्थिक विकासाचे धोरणाचा अवलंब केला. यातृन औद्योगिकरणा बाहत जाउन पर्यावरणाच्या समस्येकडे दूर्लंख झाले. आणि प्यांवरणाची समस्या एक जागिक समस्य बन्तली.

५ जुन ते १६ जुन १९७२ मध्ये रिवटन येषिक रटाँकहोम येथे भरलेत्या पहित्या 'मानबी पर्यावरणविषयक परीषदेमध्ये' पर्यावरण संवर्धन व जागृतीसंदर्भात चर्चा करण्यासाठी ११७ देश, १९ आंतर शासकीय संस्था आणि ४०० आंतर शासकीय व स्वयंरोबी संस्था ह्यांच्या उपस्थितीत पर्यावरणासंबंधी जनजागरण व स्वाचेचन ब्राव्धन क्रांच्या अपूण्या निर्णय पेण्यात अन्तागरण व स्वाचेचन ब्राव्धन क्रांच्या अपूण्या निर्णय पेण्यात अन्तागरण व स्वाचेचन ह्यांचे समृत्य ५ जुन हा जातिक पर्यावर दिन म्हणून साजरा करण्याचा निर्णय पेण्यात आला. प्रत्येक वर्षी निवन निवन विषय घेठन जातीक एष्यां रेशात पर्यावरण दिवस साजरा करण्यात येतो. २०११ वर्षी भारताने 'जंगले-निसर्ग' आपल्या संभीवतालचे बातावरण होय. यामध्ये सर्व जीविक व अजीविक प्रवक्राला सावोग्र होतो.

संशोधन विषयाची उहिष्टे

- १. पर्यावरण आणि आर्थिक विकास यातील संबंध तपासने
- पयावरण आणि आथिक विकास याताल सबध तप
 शाश्वत विकासाच्यासंकल्पनेचा अभ्यास करणे
- पर्यावरण संरक्षणासाठी उपाययोजना सचिवणे
- पर्यावरणाची व्याख्या

'विविध प्रकारची जीवसुष्टी तसेच मानवी समुह व समाज ज्या परीसरात राहतात व विकसित होतात त्या परीसरातील सर्वं घटकांना एकत्रितरीत्या पर्यावरण असे म्हणतात'

थोडक्यान पुष्कीवरील जीवनावर प्रभाव पाडणारी बातावरण, अन्न साखळी, जरूकक यांच्यावर परिणाम करणारी, जीवक घरकाच्या बाढ व विकासावर प्रभाव टाकणारी सभोवतालची परिथियती म्हणजे पर्यावरण होय . या परिथियतीमध्ये अनेक राजीव निर्जीव नैसर्गिक किंवा मानविमित्ति अनेक परकांचा समावेण होतो.

• पर्यावरणाचे घटक

पर्यावरणाची निर्मिती हो प्रमुख पाच घटकातून होत असते. त्यामध्ये मुख्य १) भौतिक पर्यावरण २) जैविक पर्यावरण ३) सांस्कृतिक पर्यावरण हे तीन घटक आहेत. व अन्य दोन घटक आहेत. पर्यावरण विकास हा या तीन घटकानाच घडन करावा लगानी. त्याची रचना पहील तत्यामध्ये दर्शावता येते.

अ.क्र.	भौतिक पर्यावरण	जैविक पर्यावरण	सांस्कृतिक पर्यावरण
०१	पाणी	हिरव्या वनस्पती	वस्त्या
०२	हवा	सुक्ष्मजीव ,िकटाणू	आर्थिक घटक
o 3	खनिजे,खडक,मृदा(भुमी)	प्राणी	धर्म
08	सौरशक्ती व तापमान	मानव	राहनिमानाचा दर्जा

Portrayed of the Effects of Milliancy on the Tribals of Nagadan by Tennuls Ao List of Contributors 222	The Theme of Contrast in Arun Joshi's The Strange Case of Billy Biswas Vinita S Virgandham Tribals living in the remote areas are till date cut off from the technological development that is taking place rapidly. Urban development and the ethnicity of tribal life are two contrasting developments human being is always confronted with. On one hand it is the civilized society and on the other hand it's the rustic, primitive and age old customs of worship and other things that these tribals strictly adhere to. Sometimes it may be considered as superstitious too. But not always might the case be. The understanding of such occurrences in the life of the tribal and the reasoning behind them can prove beneficial in awakening and exposing them to the opportunities that lay ahead of them without breaching their way of living life. After 1950s the Indian novelists began to delineate the private and the public spheres both. They began to explore the individual's quest for the self in all its varied and complex forms along with his problems and cries. Most of these writers renounced the larger world in favour of the inner man and engaged themselves in a search for the essence of human beings in their works. Novelists like Anita Desai, Arun Joshi, and Nayantara Sahgal have altered the face of Indian English novel and their works contain seeds of future development. Their works mince a maturity in the choice and treatment of themes, plot construction, delineation of characters and logistic improvisations. The Indian novels earned honours and

Impact Factor • (CIF) - 3.452. (SJIF) - 6.261. (GIF) - 0.676 (2013) 2348-7143 Special Issue Marc The Theme of Nationalism and Racial Discrimination in Such a Long Journey Someshwar Vinodrao Wasekar Assistant Professor, Department of English Bhiwapur Mahavidyalaya Bhiwapur India is the terrestrial of - Hinduism, Buddhism, Islam, Sikhism, Jainism , Christianity Judaism and Zoroastrianism. The Constitution of India has accepted the right of freedom of religion and people try to maintain the same through implementing their religion and at the same time they have become secular due to this practice. Rohinton Mistry has blended the communal issues with the personal issues of the protagonist in Such a Long Journey. His writings explore the Indians history Politics, economy, conspiracy against the minority community in India ,life style and culture during 1970's , 1980's, and 1990's, Through the writings, he has presented the anxiety felt by himself and his community due to the transformation taken place in in pre-and post-independence India. India is the terrestrial of - Hinduism, Buddhism, Islam, Sikhism, Jainism , Christianity, Judaism and Zoroastrianism. Religious faith andthinking are very important fundamentals in the life of human beings. Zoroastrianism put emphasis on purity of thoughts and purity of minds while the base of Christianity is sacrifice, faith and love. All religions philosophyhelps man to recognize himself through the service to society."Arnold Toynbee, AldouxHixley and T.S. Eliot have also written about the close links between Buddhism, Christianity and Judaism."Buddhism instills the values of love, kindness, sympathy, brotherhood and humanism. Religion instills us that all the religions have existed on the same earthand human heart struggles for the same ideals of peace, human happiness and tolerance. Nationalism and Racial Discrimination The Constitution of India has accepted the right of freedom of religion and people try to maintain the same through implementing their religion and at the same time they have become secular due to this practice. But after the Independence of India, politician are misusing the religion as per their requirement to gain the political power that is leading India in the wrong direction which is very harmful for the hard earned democracy. Due to this, we notice religious riots, suppression of the minorities, Partition and Terrorism etc. are the results of power politics. So there are many communal conflict taking place in India. The Indian religious philosophy has given stress on values such as traditional Indian values which consist mutual broadmindedness, integration, housings, divine values and ethical duties. RohintonMistry has blended the communal issues with the personal issues of the protagonist in Such a Long Journey Though he is living in Canada still he writes about the condition of his Parsi community in the post independent- India. In his all the novels, his characters feelmarginalized with clear sense of the loss of status and their historical moment. that makes one think of Mistry's non- Indian sensibility.

Abstract

There is no denying of the fact that man is a social animal. From the early ages till date, it has been man's pursuit to express himself to his fellow beings. This manifestation needed a vocal expression in the form of gestures, grimace, tone etc. and thus a speech was introduced by mankind to exchange ideas, expression, communicate emotions and the like to understand and to be understood. Since the advent in technology a lot has been changing in human life. With rapid industrialization, scientific and technological advancements man has started to live a presumably comfortable life. With technology invading our personal lives in the form of Facebook, Twitter, Social Media and in many other forms, internet being the career for all these platforms, it's too early to even predict as to how far and what permanent effect the internet will have in the years to come

Introduction

There is no denying of the fact that man is a social animal. From the early ages till date, it has been man's pursuit to express himself to his fellow beings. This expression undoubtedly went through a million changes until it reached in the form it is today. This manifestation needed a vocal expression in the form of gestures, grimace, tone etc. and thus a speech was introduced by mankind to exchange ideas, expression, communicate emotions and the like to understand and to be understood.

As Aristotle defines "Man is by nature a social animal; an individual who is unsocial naturally and not accidentally is either beneath our notice or more than human. Society is something that precedes the individual. Anyone who either cannot lead the common life or is so self sufficient as not to need to, and therefore does not partake of society, is either a beast or a god."

And with definition of Aristotle making it very clear that man cannot live without a society surrounding him and partaking in all his purposes in life whether high or low socialization makes man a social-animal and far a superior being of the creation of the world It's not that animals don't communicate but the best ever man had was the speech with which he could communicate and it being more powerful a tool as compared to that of the animals. This differentiated man as an abled being gifted with intellectual abilities.

As it has been discussed of man being a social animal, it was a fundamenta characteristic of man's behaviour to express, convey and communicate. As early inventions o a wheel by a man, so were the assumptions of language used by man. It is an understanding between two human beings which necessitated the urge to understand others language through gestures, tone and the like. The need facilitated to assimilate words and sounds fror other languages too thus enriching both the languages simultaneously. Language thus fostere cultural, economic, social, political and further more a technological exchange amon societies. So with the confab above, it can very well be surmised that language isn't on man's or one society's creation. It is an all-encompassing and all-pervading tool of communication.

Since the advent in technology a lot has been changing in human life. The day - t day life has now become more dependent on the technology based gadgets. With rapi industrialization, scientific and technological advancements man has started to live presumably comfortable life. With technology invading our personal lives in the form of

India. Pin: 441201 Abstract The education policy makers and its stakeholders are busy today in sweating Studies in Indian Place Names (UGC Care Journal) their brows by framing imbalanced and inconstant educational policies which are of no takers globally and thus no import in the broader perspective. It is ISSN: 2394-3114 Vol-40, Special Issue-07 pertinent to say that higher educational establishments in progressive countries NAAC sponsored Two Day National Seminar on Role of HEIs in Tapping Local Resources have succeeded in evolving sustainable educational policies- policies which are for Quality Sustenance and Quality Enhancement competent enough to keep their flock together. It is not merely because of better infrastructure but by adopting 'perform or perish' academic policy. It is in fact a HELD on 14th & 15th February 2020. matter of introspection as to what could be the most significant motive for Indian Organized by: Bhiwapur Mahavidyalaya, Bhiwapur, Maharashtra 441201, India students choosing to study abroad. The obvious answer could be-by maintaining the standards of all that is linked to education: infrastructure, faculty, library, laboratories, research centres, recreational amenities, sporting facilities and so forth. It is due to their holistic approach towards education-presumably the whole intellectual framework and academic ambience. Even most of the parents in advanced countries could not bear the brunt of education. Hence, children are left with no choice but to study. The offspring of such parents, who are trained under these appalling living conditions, pose a serious threat to those who really wish to purse their studies under varying conditions. The point is that higher education in India should cost more; it should squeeze every parent and every student. Only then children will turn to rigorous studies. Further, a revamp of the prevailing educational policies in India is strongly advocated to mitigate the ever widening gap between the demand and supply. The policy makers and the governments have shown utter apathy and sheer neglect towards skill sector partly because of institutional neglect and partisan attitudes of the common men. Moreover, the deficiency of a data bank of children completing skill development

Organized by: Bhiwapur Mahavidyalaya, Bhiwapur, Maharashtra 441201, India		Asst. Prof & Head, Dept. of Political Science Abstract
		Politics categorically matters a lot in the 21st century in Indian democracy. Undoubtedly po is a profession, vocation for a few, and life for some. India has witnessed the true idealistic real politics in its time but as the surge in development began, the perplexing loopholopolities as a theory and politics as a practice is more discernible.
		Value-based Politics is the prerequisite in India in this current situation where divisive po has taken the centre stage. There are as many reasons to cite for the eviction of values, politics but the one major reason can be attributed to the illiterate representatives we or represent the literate society. With a meagre understanding of the ever changing society an needs and with no sound background of ethical hierarchy the politics captivate the societheir lucrative promises. Falling in such traps for the goodies offered is the very basic nature human beings. After analysing the entire episode, in such a scenario, we too fall short of no values and tend to forward people without values to represent us. The value of anything only be felt if our vision is broad based and only then can we reach out to the soc requirements crossing boundaries and horizons. This paper tries to out forth the observations compiled by me throughout my teaching career.

UGC is providing various guidelines for higher education institute to develop and ISSN: 2394-3114 Vol-40, Special Issue-07 NAAC sponsored Two Day National Seminar on Role of HEIs in Tapping Local Resources provide quality education. But if institute manage their Talent on their own then they can be for Quality Sustenance and Quality Enhancement Keywords: Talent management. HELD on 14th & 15th February 2020. 1. Introduction Organized by: Bhiwapur Mahavidyalaya, Bhiwapur, Maharashtra 441201, India We know that every institution has its own man power and everyone has some specialty and knowledge. But some time we enable to manage it which results in decrease in performance level. Field of education is now changing vastly. If we see traditional education system which is totally base on curriculum. But now a day's only curriculum is not sufficient we need to put some extra effort for multidimensional development of students so we have to manage talent in education institute to meet the required goal. Talent management is mostly used in large industries to meet the resource requirement and to improve the industrial performance. In institute many times we need to take decision or we do planning for event or academic progress if we make decision without talent management actually it is risky for institute so that's why here in this paper we are discussing on talent management in HEIs. paper we are discussing on talent management in HEIs. Talent management is often referring to as human capital management. It is the process of recruiting, managing, assessing, developing and maintaining an organization's most important Talent management is end to end process of planning, recruiting, developing, managing, and compensating employees throughout the organization. According to theory Four pillars of talent management are:[1]

Research Paper -Physical Education and Sports

Benefits Of Physical Fitness

L Dr. Aditya Kishor Sarwe ector of Physical Education and Sports, Bhiwapur Mahavidyalaya, Bhiwapur

Introduction:

Physical fitness is the act of performing normal daily activities, balancing physical and mental stress as required by the right amount of lifestyle change dramat efficiency according to personal ability. If any work is done with dissatisfaction or while doing related work, fatigue will come on the body and mind very quickly. Also, if it takes longer to regain strength, it means that the person has lacks of physical fitness. That person will easily increase the ability to performing tasks in a more appropriate way in daily life. If his endurance will improve, his resistance to fatigue will increase, and then he resistance to fatigue will increase, and until the can demonstrate his highest physical ability by trying to perform specific tasks. If Physical Fliness is in right amount then it effect positively on human history.

What Is Mean By Physical Fitness:

tasks without undue fatigue. Our ability to carry out routine activities with undue fatigue and ample energy to enjoy leisure time per suits and to meet unforeseen emergencies. Fitness is attributed to person who possesses significant aerobic or anaerobic ability including strength, endurance, power, speed, balance and coordination and able to improve the amount of work done in a given

With the inventions of machines, human lifestyle change dramatically. It affects Physical well-being. Most Human being can't do physical activities properly. There Physical carrying capacity is decreases. So there body couldn't function efficiently and effectively in work and leisure activities. Because of this, human health is on lower side.

Benefits of Physical Fitness:

and Ample Rest. Adding Exercise in daily routine maintain the performance of Brain, Heart, Lungs, Liver always healthy. It burns excessive calories to keep human weight is in under control. Healthy tite activities with undue fatigue and ample to enjoy leisure time per suits and to meet seen emergencies. Fitness is attributed to

With proper exercise, good diet and rest it is useful to decrease obesity.

CRIMES AGAINST WOMEN AND ITS SOCIAL IMPLICATIONS ON THEIR EMPOWERMENT: AN EMPIRICAL STUDY

Dr. Jobi George Principal, Bhiwapur Mahavidyalaya Bhiwapur

Abstract

Though it sounds pretty uncanny, women's emancipation from perennial subjugation is inevitable to ensure the development of India. It needs political will and guts to implement all the legislations passed thereupon for protecting the honesty of women in the larger Indian perspective. Ignorance, prejudice, customs and traditions, poverty and illiteracy were some of the major reasons for the social evil. This is a vicious circle. Human trafficking is the most venomous evil in the society today. There are a meager section of women who enter into the flesh trade under compelling circumstances. Most of these women get infected with deadly disease like HIV/AIDS and perish and spread this disease to the community. Women are abused, abducted and raped in every nook and corner of India on every day. Women too need to be revered and protected. The voice of the voiceless is seldom heard as they contribute only a meager portion of the bureaucratic edifice of our society.

Keywords

Uncanny, emancipation, perennial, subjugation, shack-les, paradoxical, inexplicable, heart-rending, spine-chilling, impoverished, venomous, malady, heinous, recuperated, divulge Even though it sounds pretty uncanny, women's emancipation from perennial subjugation is inevitable to ensure the sustainable development of India. India is at the threshold of assuming the status of the second largest economy in the world today. Is it not paradoxical to assert that how can a nation like India become super power without empowering women at par with men in all aspects? When myriad unaddressed issues related with women's safety, security and well-being are persisting in abundance, no

A majority of poor are living in rural India and the women are its main component in the country. With this awareness, the Plan- ning Commission has focused on women empowerment issue in the Ninth and Tenth Plans. The work of woman is not restricted to kitchen room only. Now she is coming out from kitchen dragon and showing her ability in each and every sector of the economy. She finds pleasure in independent living and hangers for economic inde- pendence. There is no doubt that India is in the midst of a great revolution in the history of women. The evidence is everywhere, the voice of women is increasingly heard in patianent, courts and in streets. One of the significant developments in the recent times in India is the initiative taken in development of entrepre- neurship process among women. Empowerment of any section of society is anyth until they are conferred equality before law. Spread of education, both formal and informal on the one hand and faster growth in mass media on the other have awakened the women to get equal justice in society like men. Nowa-adays, she is required to play a dynamic role in economic development. She is at part with men or more that in each and every economic activity. Moreover, she is punctual, sincere, and disciplined in her duties. Therefore, it will go a long-way to build strong India or to make India to shine brighter than before. Empowerment is a "social action process that promotes participation of people, organizations, and communities in gain- ing control over their lives in their community and larger societ-

महिला सक्षमीकरण: ऐतिहासिक आढावा

प्रा. डॉ. मंगेश वसंतराव कडू राज्यशास्त्र विभाग प्रमुख भिवापर महाविद्यालय

भारतातील स्त्रियांच्या हक्कांच्या प्रश्नांच्या संदर्भात गेली अनेक दशके मंथन सुरू आहे. त्यातून बऱ्याच प्रमाणात स्त्रीयांच्या जिवनात मूलभूत स्वरूपाचे बदल घडूनही आलेत परंतू ह्या बदलांतून जे गुणात्मक आणि मात्रात्मक बदल घडन येणे अपेक्षीत होते ते तसे घडन आलेले दिसत नाहीत. ह्याची कारणीमिमांसा होणे गरजेचे आहे. साधारण: असे मानले जाते की भारतात प्राचिन काळात स्त्री सर्व बाजूने सक्षम होती. परंतु पितृसत्ताक समाजव्यवस्थेने काळाच्या ओघात स्त्रियांना दास्यत्वात आणले. स्त्रीयांच्या मूलभूत प्रश्नांच्या संदर्भात समाजजागृतीची सुरवात महात्मा फूले आणि सावीत्रीबाई फूले ह्यांनी केली. भारतात प्राचिन काळात स्त्री सर्व दुष्टीने ने सक्षम असण्याचे दाखले रामायण आणि महाभारतासारख्या अनेक प्राचिन ग्रंथांमधन पहायला मिळतात. असे जरी असले तरी मध्ययगीन काळापासन जगातील जवळ जवळ सर्वच समाजात स्त्रियांना गुलामगीरीत ठेवल्याचे दिसून येते. ह्यामध्ये धर्म आणि धर्मग्रंथाचा आधार घेण्यात आला. धर्मांचे वास्तव असे आहे की जगातील कोणताच धर्म स्त्रियांचे कोणत्याही प्रकारचे स्वातंत्र्य मान्य करीत नाही,उलटपक्षी ते स्त्रियांच्या सामाजीक, आर्थिक, राजकीय आणि धार्मिक स्वातंत्र्याचा व अधिकारांचा टोकाचा उपमर्द करतांना दिसतात. ह्या पार्श्वभमिवर विसाव्या आणि एकविसाव्या शतकातील स्त्रियांच्या समाजातील स्थान आणि दर्जा ह्यांची वास्तविक बाज मांडणे हा ह्या संशोधन पत्रामागील उद्देश आहे. अर्थात हे संशोधन पत्र अनुभव, निरिक्षण आणि ग्रंथालयातील विषयांशी संबंधीत उपलध्द साहित्याच्या आधारे लिहील्या गेला आहे.

विषय प्रवेश:

मानवी जीवनाच्या प्रारंभावस्थेत कोणत्याही प्रकारचे भेदाभेद नव्हते. जस जसा मानवी जीवनाचा विकास होत गेला. सत्ता आणि खाजगी संप्यत्तीची धारणा निर्माण झाली त्याबरोबर मानवी समाजात अनेक प्रकारचे भेदाभेद जाणिवपूर्वक निर्माण करण्यात आले. त्यांना पृष्टी देण्यासाठी धर्मासारख्या

Gender Sensitization And Women Empowerment

Challenges Faced by Rural Women in India

Assistant Prof. Amit S. Thakare Department of Zoology Bhiwapur Mahavidyalaya

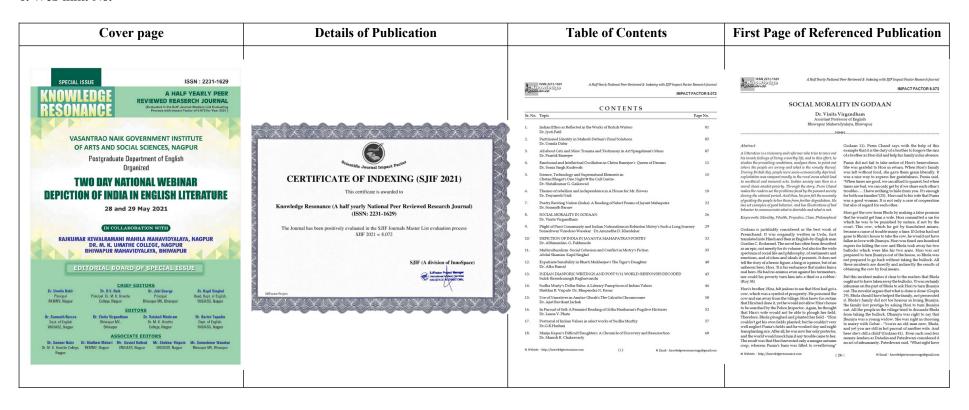

India, with its diverse culture and rich history, is a land of contradictions. Annong its most marginalized and vulnerable populations are the rural women, who face multifaceted challenges stemming from traditional norms, economic hardships, and lack of access to basic necessities and services. These challenges often deprive them of leading empowered and equitable lives. Some of the major challenges faced by rural women in India are Limited Access to Education, Economic Dependency, Healthcare Inaccessibility, Societal and Cultural Norms, Lack of Sanitation and Clean Water, Inadequate Participation in Decision Making, Increased Vulnerability to Climate Change, Domestic Violence and Abuse, etc.

Limited access to education for rural Indian women is a multifaceted issue, influenced by a combination of socio-economic, cultural, and infrastructural factors. A large number of rural women are still illiterate. Social norms sometimes prioritize boys' education over girls', leading to high dropout rates among girls. The lack of female teachers and appropriate school infrastructure deter parents from sending girls to school. In many rural areas, girls are married off at a young age, which often results in an early end to their education. Traditional gender roles may prioritize domestic chores and agricultural work for girls over formal education. Parents may be reluctant to send their daughters to schools located far away due to concerns about their safety. Many families cannot afford the direct and indirect costs of education, such as uniforms, textbooks, and transportation. In economically strained households, girls may be pulled out of school to contribute to household income or assist with chores. Some rural areas lack nearby secondary schools, making it challenging for girls to continue their education after primary levels. Insufficient or non-existent sanitation facilities, especially during menstruation, can be a deterrent for girls. Often, the quality of education in rural areas is not up to par, with inadequately trained teachers, lack of resources, and overcrowded classrooms. Some families might not see the long-term value of educating their daughters, especially if the immediate economic return seems

A COPREHENSIVE STUDY OF COVID-19 PANDEMIC AND ITS COLOSSAL CATACLYSM ON THE INDIAN SOCIO-ECONOMIC EDIFICES

Dr. Jobi George Principal, Bhiwapur Mahavidyalaya,

Bhiwapur Post, Nagpur District, Maharashtra State. India. Pin: 441201

Abstract

The edifice of a strong nation depends on the quality of its social security system. Notwithstanding the fact that we have robust strategists and strategies, the socio-economic fabric of India has not yet been changed as we expected them to be over the past few decades. The unconvincing claims of the bureaucrats about the holistic development of India on all fronts had been questioned whenever we had national catastrophes such as arsons, communal violence, ethnic clashes, natural calamities such as flood, fire and epidemic and COVID-19 Pandemic. The unpreparedness of our administrative machineries blared open the emptiness of our development claims. The rich and the poor alike perished on the streets in no time. There were millions of impoverished, homeless and underprivileged people who were left with no choice but had to bear the brunt of the Pandemic. The exodus of migrant labourers on foot including their women, children and aged ones, sometimes they carried their pet animals too, to their birth places post Lockdown reminded us of India's partition post-Independence. These migrant labourers were made homeless in their own birth places. Humanity has not yet been drained in our country. The contributions made by NGOs, Social Organizations, Community Centres, Educational Institutions and Charitable Organizations in alleviating the agonies and tortures of the poor. the marginalized and the migrant labourers should not be undervalued. It is equally true that the progress India has been making globally has not been metamorphosed into the socio-economic fabric of Indian civility. The might of a nation is gauged by the

Quraishi	Use of ICT in Higher Education Institutions during COVID-19 Pandemic: Challenges and Opportunities Dr. Vinita S. Virgandham Asst. Prof. Dept. of English Bhiwapur Mahavidyalaya Abstract The COVID-19 pandemic has necessitated a rapid transition to online education in Higher Education Institutions world-wide. Information and Communication Technology has played a pivotal role in enabling this shift. This research paper examines the challenges and opportunities associated with the use of ICT in HEIs during the pandemic. It explores the impact of ICT on future of Higher Education. The COVID-19 pandemic disrupted higher education, prompting a swift and widespread adoption of Information and Communication Technology in Higher Education. The COVID-19 in Higher Education Institutions. This paper examines the challenges and opportunities stemming from this transition. By analysing the literature and experiences, this paper offers insights, crucial for understanding the transformative role of ICT in HEIs during and beyond the pandemic. Information and Communication Technology of Higher Education. Institutions (HEIs), COVID-19 pandemic, Online education, Remote learning, Pedagogical challenges Introduction The global outbreak of COVID-19 has triggered an unparalleled disruption in numerous sectors, including education. Higher Education Institutions faced an unprecedented challenge to swiftly adapt and ersure the uninterrupted delivery of edification to students. Traditional decadions systems were significantly impacted, prompting a paradigm shift towards the integration of the control of the

As schools worldwide adapted to remote learning and social dis- tancing measures, physical education teachers faced unprecedented challenges. This research article explores the evolving role of physical education teachers in the post-pandemic era. It highlights the importance of promoting physical and mental health, adapting to technology, and fostering resilience in stu- dens. The article concludes by emphasizing the crucial role of physical education in holistic education and the well-being of students. Keywords: COVID-19, pandemic, health, well-being, technology, adaptability students, teachers, challenges, goal, fit- ness. Introduction The COVID-19 pandemic has had a profound impact on education systems globally, forcing schools and teachers to adapt rapidly to new learning environments. Physical education, an es- sential component of a well-rounded education, was particularly affected by the pandemic. With schools temporarily closing and social distancing measures in place, physical education teachers found themselves facing unique challenges. As we emerge from the pandemic, it is imperative to explore the evolving role of physical education teachers in the post-COVID-19 ara. This re- search article aims to shed light on the role of physical education teachers and the changes they must embrace to ensure the well- being and holistic development of students.

Quraishi	SOCIO-ECONOMIC IMPACT OF COVID 19 PANDEMIC WITH SPECIAL REFERENCE TO WOMEN & CHILDREN. Dr. Rajasree O.P.1 Dr. Sunillumar U.T.2 Bhivapur Mahavaidyalaya ICAR-Central Citrus Research Institute Nagpur Introduction Coronavirus disease2019 (COVID-19) is caused by severe acute respiratory syndrome coronavirus -2). The disease was first reported in December 2019 from Whaha, Hubei province. China and has since spread throughout the world. WHO declared a global pandemic on March 11, 2020 [11]. The impacts of crises are never gender-neutral, and COVID-19 is no exception. The recently released report shows that the pandemic will push 96 million people into extreme poverty by 2021, 47 million of whom are vomen and grist. This will bring the total number of women and grist living on USD 1.90 or less, to 435 million. Socio Economic Condition of Women and Children after The Pandemic Women are losing their jobs. The pandemic and measures to prevent its spread are driving a disproportionate increase in women's unemployment (as compared to men) and also de- creasing their overall working time. School and day-care closures, along with the reduced availability of outside help, have led to months of additional work for women. For working mothers, this has meant balancing full-time employment with childcare and schooling responsibilities. The responsibilities. The responsibility of caring for sick and elderly family members often falls on women as well. In general, increased un- employment tends to encourage people to go back to traditional gender roles: unemployed men are favoured more heavily in the hiring process when jobs are scarce, while unemployed women take on more household and care work. In current situation eco- nomic insecurity is not just jobs, and income alone. It has a snow-

कोरोना विषाणूचा रोजगारावर होणारा परिणाम Impact of Corona Virus on Employment

डॉ. राजेश सं. बहुरुपी भिवापुर महाविद्यालय भिवापुर

प्रस्तावना :-

करोना आल्यानंतर जगातील मोठमोठ्या देशाने त्याचे अनेक दुष्यपरिणाम वेगवेगळ्या देशामध्ये झालेंले आहेत. त्यामधला एक परिणाम म्हणजे बेरोजगारी होय. संपूर्ण जगामध्ये बेरोजगारी निर्माण झालेली आहे. वहान व गरीब देशांमध्ये याचा परिणाम मोठ्या प्रमाणात झालेला आहे. चीनमधील वहान या राज्यातन हा विषाण संपर्ण जगात पसरलेला आहे. हा विषाण् घोरिया या पक्ष्यापासून निर्माण झालेला आहे असे म्हणतात. या वायरस ने संपूर्ण जगात थैमान मांडलेलं आहे. हा विषाणू अत्यंत घातक असल्यामुळे. तो एका व्यक्तीकडून दसऱ्या व्यक्तीकडे पसरते जातो. त्यामुळे संपूर्ण जग घाबरलेलं आहेत. बलाढ्य शक्तीमान अमेरिका या देशाने देखील आपले हात टेकलेले आहे. संपूर्ण जग घरी बसलेलं दिसते यावर एक उपाय आणि तो म्हणजे सोशल डिस्टन हा एकमव उपाय आहे, परंतु सर्वच देशांना हा उपाय परवडणारा नसतो. कारण यामुळे मोठयाप्रमणात अर्थव्यवस्थेचे नुकसान होते. संपूर्ण जगाची अर्थव्यवस्था विस्कळीत झालेली आहे. चीनमधून सुरू होऊन अमेरित मोठ्या प्रमाणात पसरलेला आहे. त्याचप्रकारे आपल्या देशाची अर्थव्यवस्था विस्कळीत झालेली होतांना दिसन येत आहे. दसरा उपाय म्हणजे जास्तीत लोकांनी वॅक्सिन घेणे अत्यंत आवश्यक आहे. वॅक्सिनमळे पष्कळ लोकांचे प्राण वाचलेले आहे. करोनाचा जगातील सर्वक्षेत्रावर परिणाम झालेला आहे. याचा सर्वात जास्त परिणाम अद्योगिक क्षेत्रावर देखील होतांना दिसन येतो. यामुळे भारतातील उद्योग पूर्णपणे बंद होतांना दिसन येत आहेत. त्याचप्रकारे कृष क्षेत्र, बांधकाम क्षेत्र, मनोरजन क्षेत्र, वाहतूक क्षेत्र तसेच शैक्षणिक क्षेत्र यावर देखील परिणाम झालेला आहे. या सर्व क्षेत्रामळे देशाच्या अर्थव्यस्थेवर मोठ्याप्रमाणात परिणाम झालेला आहे. आपल्या देशााची अर्थव्यवस्था पूर्णपणे विस्कळीत झालेली आहेत. चीननंतर जवळपास २०० देशांना कोरोनाचा विळखा बसलेला आहे. सर्व जगााची ५३ टक्के अर्थव्यवस्था विस्कळीत झालेली आहेत

या कोरोना विषाणूम्ळे समाजातील लोकांचे राहणीमान बदलून

Impact And Opportunities of Covid-19 Pandemic

शिक्षण व्यवस्थेवर : कोविड - १९ महामारीचा परिणाम

– रविकांत मिश्रा

मानवाच्या अस्तित्वावर प्रश्निवन्ह निर्माण करणारी महामारी म्हणजे कोविड –१९. कोरोना महामारीने आज प्रत्येक क्षेत्रावर परिणाम केला आहे. भारतात्व नाही तर संपूर्ण जगाने या संकटाचा सामना केला आहे. लाखो लोकांच्या बळीला कारणीभूत असणारा हा कोरोना म्हणजेच कोविड –१९. या विषाणूने जगभरातील कार्यसंस्कृती पूर्णपणे बदलून टाकलेली आहे. शिक्षण व्यवस्थेवर सुद्धा याचा सर्वात जास्त परिणाम झालेला आहे. आपण या लेखात भारताच्या शिक्षण व्यवस्थेवर कोविड–१९ महामारीचा काय परिणाम झाला याचा आढावा घेणार आहोत.

प्रस्तावना

चीनमधे विकसित झालेला कोविड-१९ चा विषाण, जागतिक स्तरावर पसरवन त्याने महामारीचे स्वरूप घेतले आहे. या महामारीने संपूर्ण भारतालाच नाही तर जगाला सद्धा हादरून सोडले आहे. सामान्य माणसाच्या दैनंदिन जीवनात अनेक अडथळे या महामारीने निर्माण केले. सरकारने संपूर्ण देशात लॉकडाऊन जाहीर करून या माहामारीची दाहकता कमी करण्याचा प्रयत्न केला. की ज्यामळे लोकांमध्ये सामाजिक अंतराला प्रोत्साहन मिळेल. त्याचाच भाग म्हणजे सरकारने सर्व शाळा, महाविद्यालये, विद्यापीठ तसेच सर्व शैक्षणिक संस्थांना बंद असे घोषित करण्याचा निर्णय घेतला. त्याचवेळी विद्यार्थ्यांना शिकवण्यासाठी नवा ट्रेंड सुरू झाला तो म्हणजे ऑनलाईन शिक्षण, शाळा, महाविद्यालय तसेच विद्यापीठीय सर्व विद्यार्थ्यांसाठी ऑनलाईन वर्ग सरू करण्यात आले. परीक्षाही ऑनलाईन घेण्यात आल्या कोविड -१९ विषाणूने शिक्षण, परीक्षा आणि नोकरी यावर गंभीर परिणाम केला. अध्यापन पद्धतीतील बदलामुळे विद्यार्थी, शिक्षक आणि पालक यांना अनेक समस्यांना सामोरे जावे लागले. ऑनलाईन शिक्षण घेतांना ग्रामीण भागातील शालेय स्मार्टफोन बाळगणाऱ्या विद्यार्थ्यांची संख्या २०१८ मध्ये ३६.५% होती तर ती संख्या २०२० या वर्षात ६१.८% एवढी झाली. ही बाब सरकारने केलेल्या आर्थिक सर्वेक्षण २०२०-२१ मध्ये नमूद केली आहे. सामाजिक अंतर आणि प्रतिबंधात्मक हालचालींच्या धोरणामळे पारंपरिक शैक्षणिक पद्धतीमध्ये लक्षणीय व्यत्यय आला आहे. २०२० हे शैक्षणिक वर्ष विद्यार्थ्यांनी शैक्षणिकदष्ट्या गमावल्याचे आपल्याला पाहायला मिळाले. अनेक शाळा

Resilience And Transformation: 69-74 The Impact Of Covid-19-On Education Systems And Students Asst. Prof. R.k. Quraishi	Effects of COVID-19 Pandemic on Animal Biodiversity in India Amit S. Thakare Assistant Professor, Department of Zoology Bhiwapur Mahavidyalaya, Bhiwapur District: Nagpur Email: amitthakare995@gmail.com The outbreak of the novel coronavirus, COVID-19, in December 2019 has led to unprecedented changes in human behavior and activities worldwide. With lockdowns, curfews, and a reduction in human movement, various environmental and ecological effects have been reported. In India, a country with rich biodiversity and a mosaic of habitats, these changes have had a significant impact on its wildlife. Reduced Human Disturbance, Decrease in Pollution Levels and Reclamation of Habitats by Wildlife are some of the positive impacts while Disruption of Conservation Activities, Increased Poaching and Changes in Human-Wildlife Interactions were the negative impacts. The lockdown and subsequent decrease in human activity allowed animals to venture into areas they previously avoided. Reports of wild animals exploring urban areas and roads were common during the early months of the pandemic. Some national parks and protected areas witnessed reduced human interference, potentially reducing stress and habitat disruption for many species. A temporary decline in industrial activities and vehicular movement led to reduced air and water pollution. Cleaner water bodies might have benefited various bird species. Many conservation projects faced disruptions due to funding shortages or logistical challenges. This may have slowed down conservation efforts for certain endangered species. Field studies, annual animal counts, and research activities were halted or postponed, affecting the collection of vital data. The economic hardships and reduced patrolling and monitoring led to a surge in illegal hunting and poaching in certain areas. The closure of tourism, a significant source of revenue for many protected areas, may have indirectly fueled illegal activities as local communities sought alternate income sources. With the reclaiming of sp

Equality, Inclusion, and Activism: Championing Human Rights in Sports Dr. Aditya Kishor Sarwe	Impact of Education in Human Rights Di. Rajasree O.P. Di. Sunikumar U.T.2 Bhiwapur Mahavidyalaya ICAR-Central Citrus Research Institute Nagpur Introduction Education is the core of progress of any nation and proper education of its citizens is essential in achieving the same. Through proper education, an individual gets aware about his rights and duties. It has potential to inculcate and imbibe human rights values. It is through education human rights are actually put into practice. According to MacFarlane, "Human rights are those moral rights which are owned to each man and woman solely by reason of being human being," [2] Article 1 of the United Nations Universal Declaration of Human Rights (UDHR) says "All human beings are born free and equal in dignity and rights. They are embowed with reason and conscience and should act towards one another in a spirit of brotherhood" International laws The children are the custodians of sovereignty, rule, law and justice, liberty, equality, brotherhood and international peace and security and also the embodiment of ideals, aspirations, ambitions, and future hopes. Children are also the "future shoulders" in the form of great philosophers, mlers, scientists, politicians, able legislators, administers, teachers, judges, technologists, industrialists, engineers, workers, planners on which the country would rest.[1] On November 20, 1989, the United Nations General Assembly adopted the Convention on the Rights of the Child, a landamak for human rights. India ratified the Convention on 16 Rights of the Child, a landamak for human rights. India ratified the Convention on on the Rights of the Child has 54 articles (sections), and most of these articles list a different right that children have, and different responsibili-

Human rights in India are rooted in the country's constitutional framework, legal system, and its adherence to international conventions. Human rights are fundamental principles that recognize and protect the inherent dignity and value of every individual. Dignity, fairness, equality, respect and independence are the foundation pillars of human right. These rights are universal, meaning they apply to everyone regardless of race, gender, nationality, socio-economic status, religion or any other status. The concept of human rights has roots in many cultures and philosophies. However, in the modern context, the term became more prominent after World War II and the atrocities of the Holocaust. The world's nation sought to ensure that such violations of human dignity would never occur again. India's commitment to human rights is expressed through various provisions, but the country also faces challenges in ensuring these rights for all its citizens.

One of the significant challenges associated has been the rehabilitation of people affected due to the submergence of lands and displacement. The rehabilitation of project-affected persons (PAPs) is a critical aspect to address the social implications of large-scale infrastructure projects. When large-scale development projects, such as dam constructions, highways or urban development initiatives are undertaken they often lead to the displacement and resettlement of local communities. The rights of these project affected persons are enshrined in various international conventions, national laws and guidelines.

The Gosikhurd National Irrigation Project also known as Indirasagar dam is located in the Bhandara district of Maharashtra, India, due to its sheer magnitude, had several implications concerning human rights, particularly when it came to the rehabilitation of displaced communities from around 249 villages that were affected by the sub-

THE RECIPROCAL RELATIONSHIP BETWEEN ENVIRONS AND RELIGION: A PRAGMATIC STUDY

Dr. Jobi George

Principal, Bhiwapur Mahavidyalaya, Bhiwapur, District. Nagpur (MS) India. Pin: 441201

Abstract

The celestial gorgeousness and serenity of nature tranquilizes every creature on earth. As an umbilical cord is vital to a living organism; floras' bond with faunas is mystical; rather unfathomable. Humans enjoy incorporeal sorority with nature. All religious venerations identified their cult with nature in all its vividness and vivacity. Under the shadow of evolutions, humans have been propelling in toxic substances from factories into nature's veins; damaging the flora and fauna; making it difficult to survive. Climate Change, which has been forced upon us by humanity, is at its peak today. The powerful and pompous people on earth have been made powerless. This colossal devastation of earth is resultant of our greed for wealth and power. We haven't spared anything in the cosmos and so as the fury of nature that it has not been sparing any living organism on earth. World leaders are now in a frantic mood to avert unanticipated catastrophes happening to human beings every now and then. The politicians and corporate tycoons in our country are more active in flourishing their business houses across the globe at the cost of our precious natural resources. As suggested earlier, there exists a spiritual dimension to environmental protection as religion and nature are interconnected. The writer is not disputing on the genuineness of the genesis of these universal truths. Our spiritual dreariness; cutting across all religious factions; our failure to accept the fact that this universe is God's gift; our inabilities to protect all its resources have proven fatal to us today.

सारांश

पर्यावरण आणि मानव यांचा अतिशय निकटचा संबंध आहे. पर्यावरण मानवाच्या रोजच्या जीवनाचा अविभाज्य अंग आहे. नैसर्गिक पांवरणादारे मानवाचे जीवन समध्द होण्यास हातभार लागतो. मानवाचे दररोजचे व्यवहार पर्यावरणावर प्रभाव टाकत असतात. नैसर्गिक प्यावरण ही मानव समाजाला मिळालेली देणगी आहे. मानवी व्यवहाराचा पर्यावरणावर बरा-वाईट परिणाम होत असतो. मानवाच्या बेजबाबदार वृत्तीने पर्यावरणावर निश्चितच मोठा प्रमाणावर दष्परीणाम होत आहे. मानवाच्या विविध व्यवहारातून पर्यावरणीय हानीचे स्वरूप व्यापक झाले आहे. मानव हा आपल्या भौतिक सुखसोयी पूर्ण करण्याकरीता औद्योगिकरणाचा आधार घेत आहे. चैनिचे आणि विलाशी जीवन जगतांना पर्यावरणावर होणाऱ्या परिणामांकडे दर्लक्ष करीत आहे. आर्थिक विकास कार्यामळे प्यावरणातील विविध संसाधनावर ताण तिं आहे. भविष्यकाळात प्यांवरणातील अनेक संसाधने नष्ट होण्याची भिती निर्माण झाली आहे. तरीसध्दा मानवामध्ये याबाबतीत जागयकता निर्माण झाल्याचे दिसन येत नाही. त्यामळे प्रस्तुत श्धोा कार्यातुन. विकास कार्याचा पर्यावरणातील विविध संसाधनावरील परिणाम' या विषयावर प्रकाश टाकण्याचा प्रयत्न केलेला आहे. यामध्ये प्रामुख्याने पर्यावरण संकल्पना व प्यावरणाशी संबंधित महत्वाच्या व्याख्या, पर्यावरण अध्ययनाची निर्माण झालेली गरज, विकास कार्याचा पर्यावरणातील विविध संसाधनावरील परिणामाअंतर्गत नैसर्गिक संसाधनावरील परिणाम, भूमि संसाधनावरीलपरिणाम, वन संसाधनावरील परिणाम, खनिज संसाधनावरील परिणाम, उर्जा संसाधनावरील परिणाम, पर्यावरण संतुलनाकरीता शाश्वत विकासाची निर्माण झालेली गरज, पर्यावरणाचा ऱ्हास थांबविण्यासाठी विविध प्रकारच्या उपायोजना इत्यादीवर सविस्तर विश्लेषण करण्यात आलेले आहे.

Pin: 441201 Abstract: Acclimatization plays a pivotal role in the performance of athletes participating in outdoor sports, especially those that involve exposure to extreme environmental conditions. This research article explores the concept of acclimatization and its impact on sports performance. It explores into the physiological and psychological adaptations that occur during acclimatization and how they enhance an athlete's ability to excel in challenging egies and training protocols employed by athletes to optimize acclimatization. By gaining a comprehensive understanding of acclimatization, coaches and athletes can make informed decisions to maximize performance and reduce the risks associated with extreme conditions. Kepwords: Acclimatization, athletes, performance, strategies, conditions, psychological, challenges, adapt, exposure. Introduction: The world of sports is incredibly diverse, with athletes competing in various environments, from the sweltering heat of a desert marathon to the thin air of high-altitude mountain ranges. These environmental conditions can significantly affect an athlete's performance, making it crucial to adapt to such challenges. Acclimatization, the process by which the body gradually adjust to new environmental conditions, is a critical factor in achieving optimal sports performance. This research article explores the multifaceted relationship between acclimatization and sports performance, shedding light on its physiological, psychological, and strategic aspects.

ICAR-Central Citrus Research Institute 5. India Meteorological Department, Pune Abstract The study presents rainfall variability over semi-arid regions of Maharashtra, especially the Vidarbha region and its association to agricultural productivity during the summer monsoon season (June-September). Agricultural practices over the region largely depend upon the rainfall during the summer monsoon season (June-September). Agricultural practices over the region largely depend upon the rainfall during the summer monsoon season (June-September). Agricultural practices over the region largely depend upon the rainfall during the summer monsoon season (June-September). Agricultural practices over the region largely depend upon the rainfall during the summer monsoon season. With limited irrigation facilities, variability in rainfall leads to higher risks in the crop production. During the study period (1971-2020), the region witnessed 8 excess monsoon years and 11 deficit monsoon years. The variation in the rainfall has been closely associated with the large-scale forcing from the Pacific region, namely the El Niño/Southern Oscillation. Six out of 8 years with excess rainfall over Vidarba acco-occurred with cooler-dhan-normal sea surface temperature (SST) in the central and eastern equatorial Pacific known as La Niña and 6 out of 11 deficit monsoon years Care Vidarba acco-occurred with above account al SST known as El Niño. The agriculture productivity shows a close association with rainfall variability over Vidarba with good crop yield during excess monsoon years (La Niña years) and vice-versa during deficit monsoon years (La Niña years) and vice-versa during de

ENVIRONMENTAL START-UPS IN INDIA: OPPORTUNITIES AND HURDLES

Dr. Mangesh Kadu Department of Political Science Bhiwapur Mahavidyalaya, Bhiwapur, District. Nagpur (MS) India. Pin: 441201

INTRODUCTION

As we know a start-up is a young company founded by one or more entrepreneurs to develop a unique product or service and bring it to market. "By its nature, the typical start-up tends to be a shoestring operation, with initial funding from the founders or their friends and families. One such type of Start-up is an environmental start-up. This can also be known as a green start-up. It mainly focuses on innovations and business ideas that are beneficial to the environment. With the increasing environmental issues and concerns, many people are now trying to start an environment friendly or pro- environment business in the current era." "The idea that a renewed interest in environmental management will result in increased profitability for business has widespread appeal. In a new green world, managers might redesign a product so that it uses fewer environmentally harmful or resource-depleting raw materials—an effort that if successful could result in cuts in direct manufacturing costs and inventory savings. Green startups are new companies that develop environmental technologies or eco-friendly services. Like most companies, they seek to establish a scalable business model. But they face greater challenges because they have also committed to delivering environmentally sustainable and socially responsible products or services. This higher level of difficulty has real consequences. A combination of high operating costs, greater accountability to stakeholders, the general uncertainty surrounding any new business, and the failures of other preceding green start-ups can scare off wary investors." Nevertheless, such challenges also bring opportunities. In this particular project we'll try to understand what are

ENVIRONMENT, WASTE MANAGEMENT AND ECONOMIC DEVELOPMENT

Asst. Prof. Dr. Ravikant Mishra Bhiwapur Mahavidyalaya, Bhiwapur, District. Nagpur (MS)

Abstrac

When the economy develops the potential for growth, many new challenges also arise. From the point of view of economic growth and sustainable development, it is necessary to determine how to properly use scarce resources. There is a lot of evidence suggesting that such policies can also reduce overall human well-being. Economic growth should be based on optimum utilization of natural resources and at the same time balance of development environment should be maintained. Poverty alleviation and sustainable prosperity cannot be achieved without taking care of the environment and natural resources. There is a relationship between the environment and economic growth. Environment and socio economic development are so interlinked that development cannot be imagined without its impact on the environment. The paper focuses on the environmental impact of economic development.

Keywords: economic growth, environmental balance, sustainable development, social development

Introduction:

Natural resources and raw materials such as water, wood and minerals are used in industrial production and thus industrial growth causes environmental damage. Therefore, it is very important to maintain a good balance between environmental protection and economic development for sustainability. All dimensions of sustainable development in the environmental, economic and social spheres have to be balanced. Development can be sustainable only when the natural balance is maintained. The environment can be divided into two parts. The first is the geographical and natural environment and the second is the artificial and social environment. The natural and geographical environment

EFFECTS OF ENVIRONMENTAL CHANGES ON ANIMAL BIODIVERSITY

Assistant Prof. Amit S. Thakare Department of Zoology Bhiwapur Mahavidyalaya Bhiwapur, District. Nagpur (MS)

Environmental changes are alterations in the natural state of the environment, often driven by both natural processes and human activities. Various environmental changes observed globally include climate change, habitat loss and fragmentation, pollution, biodiversity loss, overexploitation, land degradation, invasive species, ozone layer depletion, resource depletion, shifts in bio-geographical zones, changing ocean currents and circulation patterns, etc. Average global temperatures are rising due to an increase in greenhouse gas emissions leading to global warming. Some areas experience more intense rainfall, while others face prolonged droughts. Melting glaciers and polar ice are resulting in rising sea levels. Increased carbon dioxide leads to a decline in the pH of the oceans, affecting marine life and causing ocean acidification. Expanding cities result in deforestation and habitat destruction. Increasing urban populations generate large amounts of waste, often leading to inadequate disposal and pollution. Coral reefs are degrading due to warming waters, pollution, and destructive fishing practices. Industrial emissions, vehicular exhaust, and other pollutants are causing air pollution. Industrial effluents, agricultural runoff, untreated sewage, and oil spills result in water pollution. Soil pollution is due to excessive use of chemical fertilizers, pesticides, and industrial waste disposal. Plastic pollution, especially micro-plastics, has become a pervasive pollutant in terrestrial and marine environments. Many species face the threat of extinction due to habitat loss, hunting, or environmental changes. Overfishing depletes fish stocks beyond sustainable levels. Excessive logging without reforestation efforts results in the loss of green cover. Over-extraction of groundwater leads to declining water tables. Fertile lands become deserts due to factors like deforestation, drought, or inappropri-
