| DETAILED REPORT OF THE ACTIVITY	The use of ICT (Information and Communication Technology) in education has greatly transformed the way students learn and teachers teach. With the help of Computers, Tablets and the Internet, students can access a vast amount of information and resources, to enhance their learning experience. Teachers can now create interactive lessons, conduct online assessments and provide instant Feedback to students making the learning process more engaging and effective.
	ICT has also made education more accessible to students from all walks of life. Overall, the integration of ICT in education has revolutionized the way knowledge is imparted and acquired making the learning process more dynamic and inclusive for students of all ages.
	The IQAC of our College plays a key role in adopting a variety of innovative teaching and learning practices through the use of Information and Communication Technology (ICT), Digital Library, Internet, Audio-visual aids and Free Computer Training Programmes for the students.
	In order to deliver the curriculum effectively, 'Committee for Promoting the use of Technology in Teaching and Achieving Complete Students' Computer Literacy Programme (Audio-Visual Aids-LCD/ OHP, Interactive Boards, Smart Boards etc.), encouraged faculty members to participate in ICT-enabled teaching and learning activities.

The Committee has started a free Training Programme for the students to make them Computer Literate. Teachers assisted students in learning the fundamentals of Computer applications and Internet usage under this flagship Training Programme.

A pre-assessment of Computer Literacy among students was carried out and the findings are displayed in the below-mentioned graphs for the Academic Session 2023–2024.

Following activities were organized by the Committee during the Academic Session 2023-2024

1. Basic Computer Knowledge Programme

The Committee first obtained students' data with rudimentary Computer skills. The Committee was empowered to disqualify students who already possessed a rudimentary understanding of Computers. The Committee sought assistance from Computer Literate students to provide training to the Trainees. In order to equip students with a foundational understanding of Computers, the Committee arranged a complimentary 'Basic Computer Knowledge Programme', in which 30 students enrolled their names. To facilitate the training, the Committee assigned one Instructor to lead the Training Programme and divided Trainees into smaller groups. In all 30 students completed their Course.

2. Teachers use ICT for Teaching

ICT-enabled teaching materials were designed by Associate Prof. Dr. Sunil Shinde, Associate Prof. Dr. Madhukar Nandanwar, Asst. Prof. Dr. Anita Mahawadiwar, Asst. Prof. Someshwar

Wasekar, Asst. Prof. Dr. Yogesh More, Asst. Prof. Dr. Ashwini Kadu, Asst. Prof. Dr. Ravikant Mishra, Asst. Prof. Amit Thakare and Asst. Prof. Darshana Dhamdar. As a result, teachers used the ICT-enabled instructional resources listed below in the teaching-learning process:

3. Moodle Site

The Moodle Site is a Learning Management System (LMS) used to deliver Online Courses and Training Programs. It provides a platform for instructors to create and manage content, assignments, quizzes and discussions, while also allowing students to access and engage with Course materials.

4. Google Classroom

Google Classroom is a powerful tool used by teachers to streamline their workflow, enhance students' engagement and facilitate collaborative learning. This intuitive platform enables teachers to create and distribute assignments, quizzes and materials with ease, while also allowing the students to submit their work and receive Feedback online. With Google Classroom, teachers can track students' progress, communicate with students and parents, and access a range of educational resources and add-ons, all in one centralized hub. By leveraging Google Classroom, teachers can save time, increase productivity and focus on what matters most-providing high-quality instruction and support to their students. Asst. Prof. Someshwar Wasekar, Asst. Prof. Dr. Ravikant Mishra,

Asst. Prof. Dr. Yogesh More, Asst. Prof. Dr. Ashwini Kadu and Asst. Prof. Amit Thakare used the Google Classroom.

5. Digital Library

The idea of a 'Digital Library' gives students the amazing benefit of studying in an environment that is comfortable for them. With only a few clicks, it gives individuals the amazing capacity to access a multitude of information from anywhere, at any time. All the members of teaching staff are maintaining their unique QR codes in which the information regarding the Research Papers, educational books, thorough curriculum, audio files, video presentations, question banks, previous year's question papers and skillfully written lecture notes, is regularly updated. Thus, Digital Library facilitated students to access a variety of educational resources, enriching their academic experience in a more holistic and engaging way.

PROGRAMME OBJECTIVES	• To provide free Computer Literacy education to students. • To achieve complete students' Computer Literacy. • To promote the use of technology in teaching. • To enable the students to thrive in the post-modern Digital Era. • To provide expert guidance in Hardware and Software. • To create an encouraging and supportive atmosphere where students can learn and enhance their Computer skills with confidence.
PROBLEMS FACED, IF ANY	**Challenges**: • **Time Constraints**: Thirty days Course might not be sufficient to cover all the aspects of Computer Literacy comprehensively, especially for the students with little knowledge. • **Assessment and Evaluation**: Effectively assessing the students' progress and learning outcomes during the course period required careful planning and evaluation methods. **Technical Issues**: Technical glitches, Software compatibility problems, or Hardware malfunctions sometimes disrupted the smooth running of the Training Sessions.
IMPACT/OUTCOME ACHIEVED	• Provided free Computer Literacy education to students. • Took initiative to achieve complete students' Computer Literacy. • Promoted the use of technology in teaching. • Enabled the students to thrive in the post-modern Digital Era.

	• Provided expert guidance in Hardware and Software. • Created an encouraging and supportive atmosphere where students can learn and enhance their Computer skills with confidence.

DETAILED REPORT OF THE ACTIVITY	'Department of Physical Education and Sports' of Bhiwapur Mahavidyalaya, in collaboration with Cluster of Thirteen Institution (CoTI), organized One-day National Webinar on 'Yoga and Pranayama -Effective Mechanisms to Address Depression Arising from Excessive Use of Screen Time on Mobile and T.V.' on 30th April, 2024. Asst. Prof. Dr. A.K. Sarwe, Director, Department of Physical Education and Sports, of our College, delivered the Introductory Remarks. Captain Dr. Tejsingh Jagdale, renowned Yoga Trainer was the Keynote Speaker of the Webinar. He provided valuable insights on the impact of excessive screen time and overtraining. He stressed the

	significance of incorporating proper cooling down techniques into exercise routines and encouraged instructors to consider factors like food, sleep, and mood when planning training programme.
	Dr. Tejsingh Jagdale also discussed how making the right food choices can help prevent health issues. He advised delegates to assess body composition to enhance performance through proper dietary choices. He underscored the importance of maintaining a balanced diet to prevent injuries and facilitate athletes' progress. He emphasized the need for continuous efforts to ensure success in the world of sports.
