BRIEF REPORT	Conducting remedial classes for slow learners is essential to strengthening the area where they are academically weak. Considering this fact, remedial classes were conducted by the Department of Mathematics.

	<p>In this programme, students are given an exam consisting of 25 objective questions with one possible answer on the material that has thus far been covered. Students who receive less than a 60% are deemed slow learners and receive training in a separate session. An objective test with 25 marks conducted in mathematics on August 19, 2023, a Saturday. It is Compulsory for all pupils. Total 11 Students were identified as Slow Learner and consider for the Remedial Classes. On 23rd August, 2023 to 12th September 2024, Asst. Prof. Dr. Ravikant Mishra, Department of Mathematics delivered lectures during the remedial classes for the slow learners of B.Sc. I students which eventually develop their weak areas. After that, slow learners took a new remedial class test on 12th September 2024, and they became advanced learners. The students greatly benefitted from the remedial classes and they promised to work hard for growth and raise their quality to a higher standard. after that, revised remedial class test conducted for slow learners and they become advanced learner</p>
<p>PROGRAMME OBJECTIVES</p>	<ul style="list-style-type: none"> • To encourage the students for their academic betterment. • To identify academically weak students. • To develop the student's ability to study. • To Strengthen their knowledge base, skills and attitude in Mathematics • To motivate and help Slow Learners to realize their weaknesses and help them to improve their overall performance
