## **DETAILED REPORT OF THE ACTIVITY**

The Institution has developed an efficient mechanism to monitor the attendance of students in the classrooms. To increase the percentage of students' attendance in the classrooms, the Member Secretary of this Committee worked as per the instructions and assignments given by IQAC. As soon as the Academic Session began, all the Teaching Faculties were informed to register the students' names in the Attendance Register as per the list provided by the Office of the Principal. The Member Secretary of the Attendance Committee worked diligently to increase the percentage of students attending the regular classes. He also informed all the Teaching Faculties to ensure the endorsement of the Principal on the Attendance Register at the end of every month.

The students who had less than 75% of attendance in the classrooms were encouraged to attend classes regularly. Students failing to register 75% of attendance were informed and the same was conveyed through Postcards to the Parents.

### **Mechanism of Working of the Attendance Committee during the Academic Session 2023-2024**

- Attendance Committee issued Notice on 15<sup>th</sup> October, 2023 and asked all the Faculty Members to procure Attendance Register, Work Book, Marker Pen and Duster from the Administrative Office.

**DETAILED REPORT OF THE ACTIVITY**

The use of ICT (Information and Communication Technology) in education has greatly transformed the way students learn and teachers teach. With the help of Computers, Tablets and the Internet, students can access a vast amount of information and resources, to enhance their learning experience. Teachers can now create interactive lessons, conduct online assessments and provide instant Feedback to students making the learning process more engaging and effective.

ICT has also made education more accessible to students from all walks of life. Overall, the integration of ICT in education has revolutionized the way knowledge is imparted and acquired making the learning process more dynamic and inclusive for students of all ages.

The IQAC of our College plays a key role in adopting a variety of innovative teaching and learning practices through the use of Information and Communication Technology (ICT), Digital Library, Internet, Audio-visual aids and Free Computer Training Programmes for the students.

In order to deliver the curriculum effectively, 'Committee for Promoting the use of Technology in Teaching and Achieving Complete Students' Computer Literacy Programme (Audio-Visual Aids-LCD/ OHP, Interactive Boards, Smart Boards etc.), encouraged faculty members to participate in ICT-enabled teaching and learning activities.

The Committee has started a free Training Programme for the students to make them Computer Literate. Teachers assisted students in learning the fundamentals of Computer applications and Internet usage under this flagship Training Programme.

A pre-assessment of Computer Literacy among students was carried out and the findings are displayed in the below-mentioned graphs for the Academic Session 2023–2024.

## Computer Literate/ Illiterate Percentage Graph

Following activities were organized by the Committee during the Academic Session 2023-2024

### 1. Basic Computer Knowledge Programme

The Committee first obtained students' data with rudimentary Computer skills. The Committee was empowered to disqualify students who already possessed a rudimentary understanding of Computers. The Committee sought assistance from Computer Literate students to provide training to the Trainees. In order to equip students with a foundational understanding of Computers, the Committee arranged a complimentary 'Basic Computer Knowledge Programme', in which 30 students enrolled their names. To facilitate the training, the Committee assigned one Instructor to lead the Training Programme and divided Trainees into smaller groups. In all 30 students completed their Course.

### **5. Digital Library**

The idea of a 'Digital Library' gives students the amazing benefit of studying in an environment that is comfortable for them. With only a few clicks, it gives individuals the amazing capacity to access a multitude of information from anywhere, at any time. All the members of teaching staff are maintaining their unique QR codes in which the information regarding the Research Papers, educational books, thorough curriculum, audio files, video presentations, question banks, previous year's question papers and skillfully written lecture notes, is regularly updated. Thus, Digital Library facilitated students to access a variety of educational resources, enriching their academic experience in a more holistic and engaging way.
