DETAILED REPORT OF THE ACTIVITY	<p>Makar Sankranti, which is celebrated as Kite Festival, adorns the sky with vibrant kites, creating a spectacular sight. However, the exuberant kite-flying competitions held during this occasion can inadvertently pose significant dangers, particularly for birds and other small creatures. The threads (known as Manja) used for the kites can inadvertently entrap and harm these creatures, even endangering their lives.</p> <p>In a responsible initiative followed by Makar Sankranti, our NCC Cadets undertook a Manja (Kite Thread) Collection Drive from 15th January, 2024 to 18th January, 2024. Senior Under Officer- Pranay Ilamkar led this effort to address this issue. NCC cadets of our College spread awareness among the people about the hazardous effect of Nylon Manja through the rally. They cleaned up the College premises and the surrounding streets. Notably, they diligently gathered not only damaged kites but also discarded hazardous Manja from the streets. The participation of 28 NCC Cadets amplified the impact of this endeavour.</p> <p>Colonel Vikas Sharma, the Commanding Officer</p>

	<p>of the 20 Maharashtra Battalion NCC Nagpur, applauded the commendable initiative of these Cadets. Dr. Jobi George, the Principal of our College, extended his heartfelt appreciation for the dedicated contribution of the Cadets towards safeguarding the lives of animals.</p> <p>This effort shows how undertaking thoughtful ventures can make a big impact. The Cadets demonstrated that they really care about their community and the environment by carrying out this act of social responsibility. The initiative was coordinated under the able supervision of Asst. Prof. Dr. Yogesh More.</p>
PROGRAMME OBJECTIVES	<ul style="list-style-type: none">• To address the potential harm caused to birds and other small creatures due to the use of hazardous kite threads during the Kite Festival.• To collect and remove hazardous threads from the environment, thus reducing the risk to wildlife.• To encourage a change in the behaviour and promote safer kite-flying practices.• To contribute to a cleaner and safer community by removing discarded kites and dangerous kite threads from public spaces.• To encourage students for personal development and equip Cadets with a sense of responsibility towards their

	<p>community.</p> <ul style="list-style-type: none"> To imbibe Institutional Social Responsibilities among our students.
<p>PROBLEMS FACED, IF ANY</p>	<p>Lack of Awareness: Majority of people in the community may not be aware of the dangers posed by hazardous kite threads to birds and animals. Convincing people to change their kite-flying habits and to actively participate in the collection drive was a challenge for the Committee.</p> <p>Safety Concerns: Collecting damaged kites and hazardous Manja from streets have exposed the Cadets to safety risks such as cuts from sharp kite strings or potential contact with harmful chemicals or materials.</p> <p>Disposal: Proper disposal of collected damaged kites and hazardous Manja in an environment-friendly manner, have posed serious challenges. Finding appropriate and environment-friendly disposal methods for materials, required careful consideration.</p> <p>Despite these challenges, the fact that the NCC Cadets took on this initiative demonstrated their determination to make a positive impact on their community and the environment. Overcoming these challenges have contributed to the overall success of the Manja Collection Drive.</p>
<p>IMPACT/OUTCOME ACHIEVED</p>	<ul style="list-style-type: none"> Addressed the potential harm caused to birds and other small creatures due to the use of hazardous kite threads during the Kite

DETAILED REPORT OF THE ACTIVITY	<p>Electronic Waste is the discarded electronics and electrical devices. It is one of the hazardous wastes. It has many hazardous effects on the environment and the health of the individuals. Improper E-waste processing in Developing Nations can lead to adverse human health effects and pollution in the environment. As the decomposition of electronic items takes a more prolonged and different methodology, it is advised to decompose it in scientific and eco-friendly manner. The recycling of E-waste serves a lot of useful purposes. For example, protecting human and environmental health by keeping those devices out of landfills. Recovering the parts within the devices that still have value and providing the manufacturers with recycled metal that can be used to make new products. In India, the Government, through the Ministry of Environment, Forest and Climate Change (MoEF), released updated E-Waste Management Rules. International treaties like Basel Convention were aimed at lessening and regulating the movement of hazardous waste among countries.</p> <p>Our College also took efforts to exterminate E-waste from the society and to recycle it in a scientific way. Bhiwapur Mahavidyalaya has taken an initiative in collaboration with M/s. Suritex Pvt. Ltd., Nagpur, a</p>

Government authorized E-waste Recycler for recycling E-waste in a Scientific and Eco-friendly manner. On 2nd May, 2022 our College signed a Memorandum of Understanding (MoU) with M/s. Suritex Pvt. Ltd. For ensuring the proper disposal and the recycling of E-waste as per the safety norms set by the Maharashtra Pollution Control Board. Our College paid Rs. 15000/- exclusive of GST for E-waste services. To implement the same, our Institution established E-waste Collection Centre under the Department of Physics. A Policy was designed to ensure the proper working of the Centre. As per the Policy, Request letters were issued to various Institutions, Government Offices and to individuals for providing the E-waste. Circulars were also displayed on the Notice Boards, appealing the students and the Staff members for providing E-waste. College collected all sorts of E-Waste materials like Electrical and Electronic Appliances, IT Hardware and its consumables, Telecom Equipment and switches, Bio Medical Equipment and its spares, other Medical Devices, Power Chords, Cables, Wires, Chargers, Paper, Glass, Metal Scraps or any other device that runs on electricity/battery and provided it to M/s. Suritex Pvt. Ltd. We paid the Rs. 50/- for a piece of discarded monitor and CRT Display and Rs 10/- per kilogram for other items, against the total quantity of E-waste collected from the providers. College also issued Appreciation Letters to the providers for supporting the College in

	<p>this Noble Cause. During the Academic Session 2023-2024, College formed a Four Member Committee for monitoring and facilitating the E-Waste Collection. A special E-Waste Collection Drive was organized during the visit of Indian Space Research Organization (ISRO) Bus in our Campus on 3rd March, 2024. Two Monitors and 86 kg of E-Waste had been collected from 8 Donors during the Drive. During the Academic Session 2023-2024, a total of 1420 kilograms of E-waste and 150 Monitors were collected from various Institutions, Staff members and Students of our College, including 1285 Kg of E-waste from K.D.K. College of Engineering, Nagpur and subsequently provided it to M/s. Suritex Pvt. Ltd for recycling. As per the E-waste Management Rule-2016 (Rule 19), M/s. Suritex Pvt. Ltd provided E-waste Manifest (C-Form 6). The College generated a revenue of Rs. 36300/- (Vide Cheque No. 001274 and 001275 dated 26/02/2024) of which, sum of Rs. 20350/- was paid to the providers through Cheque, for providing E-waste, during the Academic Session 2023-2024.</p>
<p>PROGRAMME OBJECTIVES</p>	<ul style="list-style-type: none"> • To raise awareness among students, Staff and the local community about the hazards of E-Waste and the benefits of responsible recycling. • To implement a systematic approach to collect, transport and recycle E-Waste in accordance with National and International regulations to ensure the safety of both environment and human health. • To foster partnerships with authorized E-Waste recycling entities, Government Agencies and

	<p>local communities to collectively address the E-Waste problem.</p> <ul style="list-style-type: none"> • To extract valuable materials from E-Waste items, such as metals and components, for reuse and contribute to the circular economy. • To prevent the harmful effects of improper E-Waste disposal on soil, water and air by diverting E-Waste from landfills and incineration. • To train students and staff in proper E-Waste handling, collection and awareness creation, promoting a culture of responsible E-waste disposal. • To mark the contribution of Department of Physics in executing Institutional Social Responsibilities.
<p>PROBLEMS FACED, IF ANY</p>	<p>Awareness and Participation: Everyone is not aware of the harmful effects of E-waste or the importance of its proper disposal. Encouraging participation from students, staff and other individuals was challenging due to the lack of awareness.</p> <p>Collection Efficiency: Collection of E-waste required a structured collection system. The Committee faced some challenges like insufficient collection points, difficulties in reaching out to all potential contributors and ensuring consistent and regular collection.</p> <p>Inaccurate Sorting: E-waste often contains a wide variety of materials.
