Parliamentary Affairs (M.S.).
Secretary,
B.C.Y.R.C., Nagpur.

42. Course Outcome, target setting and attainment is well defined, disseminated and executed.

Teachers and students are well-informed about the Programme Outcomes and Course outcomes of various programmes we offer. This awareness is cultivated through a structured approach of communication and engagement.

For teachers, comprehensive Orientation Sessions and regular Professional Development Workshops ensure that they fully understand the intended learning outcomes of their courses. These sessions highlight the specific skills, knowledge, and competencies students are expected to acquire by the end of each Course and Programme. Additionally, detailed course syllabi and outcome-based educational frameworks are provided, which serve as a constant reference for educators.

Students, on the other hand, are introduced to the Programme Outcomes and Course outcomes at the beginning of their academic journey. This is achieved through Induction Programmes, academic advising sessions, and detailed course handbooks. Furthermore, each course syllabus explicitly lists the expected outcomes, and instructors regularly discuss these objectives in class to reinforce their importance. Continuous assessments and Feedback mechanisms are aligned with these outcomes ensuring students can track their progress and understand the relevance of their learning activities.

By maintaining a transparent and consistent communication strategy, our Institution ensures that both teachers and students remain aligned with the Programme goals, fostering a cohesive and purpose-driven educational environment.
