Brief Report

The Action Taken Report below gives the complete analysis of individual responses and complete confidentiality has been maintained. The responses to the question on skill development, developing analytical abilities and teaching/exposing the learners to the value systems and knowledge have raised eyebrows. However, the Institution pays heed to the minutest detail pertaining to its quality policy. The Institution has a policy of maintaining daily Workbook for the faculty. This Workbook holds all the details of the syllabus taught, students' Counselling details, and remarks thereof.

The assignments given to the students are aimed at enhancing the critical reasoning skills of students. As such, these assignments help the students to identify their creative ideas in a better way.

The Institution, through its various disciplines, has asked the faculty to include topics based on the learners' levels and assess them and train them to cater to the above- mentioned skills.

The faculties have taken the Feedback from the students in good stead and are working towards achieving the envisioned goals of quality policy. Thus, the Institution, with its Mechanisms, ensures to bring out positive results.
