DETAILED REPORT OF THE ACTIVITY	Bhiwapur Mahavidyalaya, in collaboration with the Maharashtra Center for Entrepreneurship Development (MCED), Nagpur, successfully organized a Free Technical Entrepreneurship Training Programme for youth from the General Category. A Memorandum of Understanding (MoU) was signed between Bhiwapur Mahavidyalaya and MCED to formalize their collaboration in the development of the Entrepreneurship Development Cell (EDC) within the College. This MoU marks the beginning of long-term cooperation in skill development and entrepreneurship training for the rural youth. As per the MoU, the venue and training arrangements were to		

	be overseen by Bhiwapur Mahavidyalaya. The programme was aimed to equip the participants with vocational skills and entrepreneurial knowledge in two high-demand areas: Beauty Parlour Skills and Food Processing. The initiative was sponsored by the District Industries Center. The Free Technical Entrepreneurship Training Programme was a commendable effort in empowering the youth through skill development and enterprise education. The collaboration between Bhiwapur Mahavidyalaya and MCED has laid a strong foundation for future initiatives under the Entrepreneurship Development Cell. The programme not only enhanced technical proficiency but also inspired young individuals to take confident steps towards self-employment and sustainable livelihoods.
PROGRAMME OBJECTIVES	1. To provide free, hands-on technical training to aspiring entrepreneurs from the general category. 2. To encourage self-employment and promote small-scale entrepreneurship in the rural region. 3. To enhance vocational and entrepreneurial skills among young men and women. 4. To create awareness about government schemes and support systems available for entrepreneurs.
PROBLEMS FACED, IF ANY	As all of the participants were homemakers, the enrollment of them was really challenging. It was a real challenge to convince them to enroll for the training

	sessions. The schedule had to be adjusted as per their convenience and preference. Even then the attendance of the participants was dwindling during week-end and forthcoming festive occasions.
IMPACT/OUTCOME ACHIEVED	• 50 participants were trained in Beauty Parlour Skills and 50 were enrolled in Food Processing. They were trained in practical vocational skills. • Participants expressed increased confidence in starting their own small-scale enterprises. • Several trainees have shown interest in applying for government schemes and bank loans to launch their ventures. • The training fostered a spirit of entrepreneurship and self-reliance among the rural youth.
ANALYSIS REPORT OF THE FEEDBACK OBTAINED FROM STUDENTS/ BENEFICIARIES/ ACADEMIC PEERS ETC.	Beauty Parlour Skills A few trainees requested more time for individual practice and suggested introducing advanced-level training in bridal makeup and hair styling. Many trainees showed interest in starting home-based beauty parlours and sought guidance on basic business setup, pricing, and client handling. Food Processing Some of the participants requested for introducing courses like Dairy Processing (paneer, ghee) and Food Packaging Techniques in future trainings. They also requested more detailed Sessions on marketing and branding of food products. Participants expressed interest in attending follow-up Sessions and advanced training to expand their skillset and improve product quality.

GEOTAG PHOTO GALLERY WITH CAPTIONS (Only GEOTAG photos covering the entire gamut/span of the activity will be accepted)
