DETAILED REPORT OF THE ACTIVITY	The Guidance Centre for Competitive Examinations under the aegis of the Internal Quality Assurance Cell (IQAC) at Bhiwapur Mahavidyalaya successfully organized a five-day free Workshop titled “The Core Pillars-II” from January 27th to January 31st 2026. This academic initiative was in collaboration with the Spectrum Academy, Nagpur Branch to provide rural Civil Service aspirants with structured, high-quality guidance and strategic frameworks to tackle competitive examinations. The inaugural session of the Workshop was hosted by Asst. Prof. Dr. Vinita S. Virgandham, Member Secretary of the Guidance Centre for Competitive Examinations who welcomed the dignitaries and highlighted the on-going capacity-building initiatives of the centre. The formal inauguration was graced by the esteemed presence of Principal Dr. Jobi George, alongside Asso. Prof. Dr. Anita V. Mahawadiwar (IQAC Coordinator), Mr. Sandeep Dhote (Branch Manager, Spectrum Academy) and Asso. Prof. Dr. Motiraj Chavhan, all of whom emphasized the critical value of timely expert mentorship and methodical preparation in bridging the academic gap for regional students. Following the formal opening, the Workshop transitioned into its daily subject-specific technical modules led by seasoned subject specialists from Spectrum Academy. On the first day, 27th January, 2026 Mr. Sandeep Dhote utilized his twelve years of expertise to decode the vast syllabus of History, introducing students to historical timelines and high-scoring thematic frameworks. The			

	second day i.e. 28th January, 2026 focused on Geography and Current Affairs, where Mr. Devendra Longade drew on his eight years of experience to demonstrate how dynamic daily news should be analytically integrated with static curriculum concepts. On 29th January, 2026 Mr. Sachin More handled the Indian Polity segment, simplifying complex constitutional structures, fundamental rights, and legislative functionalities. The fourth day i.e., 30th January, 2026 was dedicated to Mathematics and Logical Reasoning, during which Mr. Mangesh Mankar oriented the participants toward competitive shortcut methods, quantitative aptitude formulas and speed optimization frameworks. The technical series concluded on 31st January, 2026 with an intensive module on Marathi syntax, grammar and high-yielding vocabulary delivered by Mr. Santosh Buddhewar. The five-day programme concluded successfully generating an overwhelming response and highly positive feedback from the participating students who were benefited from the direct interaction with specialist faculty. By providing robust analytical foundations across these five core thematic areas, the collaborative initiative met its institutional objective of fostering a competitive examinations culture within the College. The Organizing Committee member Asso. Prof. Dr. Motiraj Chavan expressed its profound gratitude to the institutional management, the Principal and the cooperating staff members for their consistent administrative support in executing this extension programme seamlessly.
PROGRAMME OBJECTIVES	▪ To offer rural civil service aspirants structured, high-quality guidance and strategic frameworks specifically designed to tackle competitive examinations. ▪ To bridge the regional academic gap for rural students by providing them with timely expert mentorship and methodical preparation strategies. ▪ To conduct intensive, subject-specific technical modules led by seasoned specialists across core exam areas like History, Geography, Indian Polity, Quantitative Aptitude and Language. ▪ To orient participants toward competitive shortcut methods, quantitative aptitude formulas and speed optimization frameworks to maximize their scoring potential.

	▪ To foster a robust, sustainable competitive examinations culture within the College under the aegis of the Internal Quality Assurance Cell (IQAC).
PROBLEMS FACED, IF ANY	▪ Condensing massive, complex competitive syllabi (like full-scale Indian Polity, History, and Geography) into brief, single-day technical modules. ▪ Managing the diverse academic baselines of regional students, particularly when introducing rapid mathematical shortcuts and speed optimization frameworks. ▪ Syncing the daily schedules of multiple external subject-matter specialists from Spectrum Academy, Nagpur over a consecutive five-day period. ▪ Overcoming the initial difficulties that the rural students face, when trying to analytically connect daily dynamic news with rigid, static curriculum textbooks. ▪ Shifting student mindsets from viewing the Workshop as a short, five-day standalone Event to maintaining a continuous, self-driven competitive examination culture post-workshop.
IMPACT/OUTCOME ACHIEVED	▪ Participants successfully learned to decode vast syllabi, mastering historical timelines and high-scoring thematic frameworks in History. ▪ Students developed the ability to analytically integrate dynamic daily news and current affairs with static geographical and curriculum concepts. ▪ The technical sessions successfully simplified complex constitutional structures, fundamental rights and legislative functionalities for the attendees. ▪ Students gained practical exposure to Mathematical shortcuts and speed optimization techniques essential for the logical reasoning segments.
